DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

Although not as aged as many structures in Talbot County, Longwoods School is the last remaining one-room school house. It appears to have been constructed around 1900, a frame building on a brick foundation. It's three bays wide and three bays deep with a shed addition to the rear (N.W.) Two doors open into small vestibules on the S.E. gable. Between the two doors is a double window, each with 4/4 sash. A shed roof supported on champhered brackets covers the S.W. facade. Each window of the side has 6/6 sash and louvered shutters. The ends of the steeply pitched rafters are exposed and shaped. At the apex of the roof above the entrance is a small open bellfry with copper roof and weather vane.

Behind the building are two privys and fencing for privacy. The building is painted red with white trim. It has recently been restored by the Talbot County Commissioners.

SPECIFIC DATES

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

Longwoods School is a significant structure because it represents the beginnings of public education in Talbot County and indeed in America. The building itself is a good structure of the period around 1890-1910 and reflects the tastes of the period as well as the abilities of the craftsmen who built Longwoods School.
